MIT INTERNATIONAL SCIENCE AND TECHNOLOGY INITIATIVES (MISTI)

MIT-Germany – Lockheed Martin Seed Fund

MIT-Germany – Lockheed Martin Seed Fund

Through an annual call for proposals, the new fund promotes the exchange between faculty and students at MIT and at universities and public research institutions in Germany.

Proposals will fit within Lockheed Martin’s Global Strategy to promote international, collaborative research focused on but not limited to:

- Autonomy and Robotics
- Sensor Technology and Exploitation
- Signal Processing and Communications
- Data Analytics
- Materials and Manufacturing
- Advanced Electronics
- Human Systems Training
- Energy and Power

This year, special priority will be given to proposals that fit within Lockheed Martin’s Advanced Manufacturing priorities to identify emerging innovative technologies around but not limited to:

- Manufacturing Process Control
- Modeling of Materials and Processes
- Novel Materials for Extreme Environments
- Automation of the Factory of the Future

The MIT-Germany Lockheed Martin Seed Fund is a part of MISTI Global Seed Funds. All MISTI Global Seed Funds criteria, application and evaluation procedures apply. This year’s application deadline is September 16, 2019.

Applications should:

- present a balanced exchange between the participants
- demonstrate complementarity between the teams
- involve undergraduate and graduate students

Need help finding an MIT professor or researcher to collaborate with?

These links will help you find faculty connections – web.mit.edu/research and global.mit.edu/research – and the MIT-Germany team is also happy to help identify potential collaborators and make introductions to MIT faculty. Please contact Program Manager Justin Leahey (jleahey@mit.edu).
