Study in North America – what do I need to know?

The pandemic – North America is opening up, but the picture is still unclear

- Many universities require full vaccination, but not all
- Isolation and quarantine rules may apply
- Situation is changing every day

The academic calendar - fitting it all together

- North American system vs. German system
- Semester vs. quarter
- Plan early

The Cost of living – the experience is worth the expense

- US is typically more expensive than Canada
- On-campus vs. off-campus housing
- Plan at least USD 2,500 to 3,000 per month, more for East and West Coast universities
