How to find courses at TUM in a specific department

Some pre-information

This description is for finding courses in a specific department. If you want to search for courses in general, please see the other pdf about “How to find courses at TUM in general?”

The TUM course catalogue can be found here: https://campus.tum.de/tumonline/webnav.ini

IMPORTANT: Please DO NOT register in TUMonline yourself! To search for courses only use TUMonline without registering! TUM will take care of all exchange students’ registration later (once you have been accepted).

Important information:
- Choose the academic year and the name of a course you are interested in. If no courses are shown for the academic year / semester in which you would like to study at TUM, please select the academic year / semester for the previous year (in most cases, the courses offered will be the same).
- If the course title/description is written in English, does that mean that the course is taught in English? → No! Please check the course language within the course description!
- 60% of your courses need to be in the TUM department you were nominated for.
- Fill in your Learning Agreement / Study Plan:
  - ECTS: Not found / not mentioned? Write complete course name / course ID.
  - Write the course names exactly in the way that you found them on TUMonline.
  - Fill out by typing, no handwritten versions.

Language of instruction → necessary language confirmations

English → an English certificate is requested
German → a German certificate is requested
German and English (tought in both languages on an equal basis or one language as the main part) → an English and a German certificate are requested

Questions regarding courses, ECTs,.etc.

Under the following link you can find all TUM departments. Search for your TUM department and check there under the title “International Website” (you can find it under each department). Please see under the link specified there for further information regarding courses: http://www.international.tum.de/en/internationalaffairs/

Below you can find the following information

- Find the english page for your course search (page 2)
- Start searching for courses in a special TUM department (page 2 & 3)
- Searching for courses or moduls (page 3)
- Find further details as e.g. course language, ECTs, code ID.. (page 4)
Find the English page for your course search

Searching for modules

Choose the academic year and the name of a course you are interested in. Click on “Filter”.

If no courses are shown for the academic year / semester in which you would like to study at TUM, please select the academic year / semester for the previous year (in most cases, the courses offered will be the same).
Find further details as e.g. course language, ECTs, code ID...

A list of courses appears. Click on the course you are interested in.

Here you can find the course
Here you can find ECTS
Here you can find the language of

Examination in this module consist of two 15-10 minutes oral presentation in the form of a group project, supported by digital and print media. The presentation skills for the students ability to describe the latest research findings in economic geography and spatial planning. To develop new functional and spatial types of areas and to understand the fundamental socio-economic drivers of morphological and spatial change.

As part of the project students demonstrate that they are able to apply their-acquired knowledge, to analyse regional and urban development strategies, to assess their intended impacts and to select suitable development proposals.
