**Erasmus+ scholarships for staff mobility for teaching or training in Egypt (Erasmus+ international dimension)**

Within the international dimension of the Erasmus+ Program, the European Union offers grants for staff members for teaching or training purposes in Egypt.

| Background and goals | Initiating or strengthening collaboration between faculty members and researchers, e.g. for training purposes and/or collaboration in teaching. For AUC, especially the STA mobility is expected to help both partners discuss different ways of academic collaboration as to support blended and online learning, to initiate international academic competition events and to establish special academic programs.  
Strengthening institutional engagement with our partner universities through exchange of best practice and development of new formats of cooperation  
To deepen existing ties with the two institutions, in particular through exchange of administrative and academic staff on departmental and central level. |
